

When I first went to what is now my home church, I was impressed with their large and contemporary music band. I enjoyed that style of music and wanted to hear more. A friend mentioned Air1. I found the station and liked what I heard. That was 7 years ago and I've been listening every since. Air1 is the ONLY radio station I listen to. This station has been a great service to me and my community. I daily hear people who have called in saying that the last song played really spoke to them, or that the verse of the day was just what they needed needed to hear. I too have felt this way. If Air1 were to be replaced with another program, our community would have nothing else to turn to. There is NO other station like Air1. Nothing comes close, not even it's parent station K-LOVE. You know the saying that if you're told something long enough, you begin to believe it? Well, it's true with Air1. You hear of God's amazing love for you, about how he loves you more that you can imagine, about how he thinks you are worth the Son to Him. Do you know what it is like to feel depressed, isolated, alone and then be told that you are worth a son? To have someone tell you that you are important to me, you are special...it changes your view of yourself. You gain self confidence, respect yourself. Air1 serves not only my local community, but also the entire world. You can listen to this station on-line. Those serving our country have called in to let Air1 know how much they appreciate being able to hear the music, hear God's word, to hear that we, the listeners, are praying for them. You don't need to be in the desert surrounded by evil to appreciate Air1. We all live in some sort of battlezone and the encouraging music of Air1 gives us courage to withstand another day.

Please don't let Air1 be displaced by another broadcaster.
